"A BOGY"

Is American Competition,

According to Joseph Chamberlain.

Modern Legislation, Not Competition,

Is Strangling British Industry.

"Inspected to Death and Hampered at Every Step."

London, June 13.—(Spl.)—"A bogey of politicians and journalists of destructive tendencies," is what Arthur Chamberlain, brother of Joseph Chamberlain, calls American competition. The utterance was made yesterday while Chamberlain was addressing the shareholders of Kynochs Limited. Modern legislation, Chamberlain added, has more terrors for him than all foreign competition.

English manufacturers, although they were never more confident, energetic, successful and wealthier, were subject to numerous disadvantages, including heavy railway charges, strikes and constant interference by parliament and the local authorities. They were inspected to death and hampered at every step.

The electrical industry had gone to the United States because it had been strangled here by the mischievous activity of the home office and local boards.

GOLD MINES

Caused the Boer War

And They'll be Assessed to Pay For It.

London, June 13.—(Spl.)—The announcement will soon be made of the levy of \$250,000,000 on the gold mines of the Transvaal to pay half the cost of the Boer war. This is popular in England, as it is felt that the war was caused by the gold mine interests.

OREGON

Has Returned From the Orient. Splendid Welcome.

San Francisco, June 13.—(Spl.)—The Battleship Oregon entered the Golden Gate last evening and was welcomed with booming cannon and shrieking whistles. All along the water front the greatest enthusiasm was manifested and the stars and stripes floated all over the city in honor of the home-coming of the Bull Dog of the navy.

The Oregon, in command of Capt. Chas. M. Thomas, left Yokohama on May 16.

MILLIONAIRE

Wants a Divorce From an Insane Wife.

West Palm Beach, Fla., June 13.—(Spl.)—Henry M. Flagler, the millionaire, has applied for a divorce from his wife under the recent Florida law which makes insanity a cause for divorce.

It is hardly so exclusive a bit of news as to earn the name of an "open secret" that Mr. Flagler intends to remarry soon after he procures his divorce.

LYNCHING

On the Wholesale Plan Threatened in Louisiana.

Shreveport, La., June 13.—(Spl.)—John Foster, the brother-in-law of Gov. McMillen, of Tennessee, was shot dead yesterday on his plantation near here by a negro laborer named Edwards, who was urged on by others. One of the gang, "Prophet" Smith, was captured, and the whites want to burn him at the stake. He is not lynched yet, but the friends of Foster swear that when Edwards, who is still at large, is captured, they will string up the whole gang of 17 negroes.

Negro Captured.

New Orleans, June 13.—(Spl.)—A special from Kennebrew this afternoon, says that while there is some doubt as to identification, it is believed that "Edwards" is a man who has been captured by a party under the direction of Jake Foster, brother of John Foster, the murdered man, at Shreveport. An overseer named Vickers, at Belcher, captured the negro. He is being brought back to Kennebrew's store, and will be burned at the stake.

TURKS

Who Are Not In the Ring

Threaten to Overturn the Government.

Disgusted With the Influence of Izzet Bey.

Vienna, June 13.—(Spl.)—According to Die Informations Constantinople correspondent, the young Turks party has obtained strong reinforcements from official circles in Turkey. The correspondent states that 80 prominent officials have gone abroad to join the young Turk movement because they are disgusted with the predominant court clique, of which Izzet Bey, the Sultan's secretary, is the leader, and which controls the Sultan absolutely.

Tewfik Pasha, the correspondent states, threatens to resign for the same reason. Izzet Bey has such an influence over the Sultan that he secures the disgrace of all his opponents by declaring to Abdul Hamid that they are in favor of the young Turks.

TROOPS

Will Not be Withdrawn

Before the First of October.

Meanwhile, Cuba Has Much to Do.

Banquet Won Over Convention Delegates.

Washington, June 13.—(Spl.)—The unqualified acceptance of the Platt amendment by the Cuban constitutional convention yesterday does not mean that the American soldiers will be immediately withdrawn from the island nor that the trusteeship of the U. S. will be ended at once. Before this is effected the convention must outline and adopt an election law, officers must be chosen and an actual government be in smooth operation. All this will take time and Oct. 1, is set by cabinet members as the earliest possible date on which Cuba may be left to work out her destiny unaided. Even this is considered by some as probably too early. The selection of the first officers of Cuba will be carefully undertaken. It is intimated at the war department that General Wood will have much to do with the choice of Cuba leaders. He will urge on the islanders the necessity of placing in office the most able and representative men that the difficulties which always attend the formation of a new government may be minimized.

A study of the vote by which the appendix to the constitution was passed, shows that the visit of the Cuban delegates to Washington was not without beneficial result. Of the five who listened to the explanations of Secretary Root and the President on the Platt amendment four voted yesterday in support of it. Meanwhile, the work of the army in Cuba will consist mostly of policing. It is questionable whether all of the 4,000 soldiers will be required for this duty but withdrawal in every event will be gradual. On his last visit to this city General Wood stated that conditions at that time might on their face warrant the departure from Havana and other cities of every American soldier. At the same time it was impossible to estimate probabilities or to foretell exactly how many men were necessary to overawe possible turbulence.

"IT AIN'T ME!"

Councilman Sawyer's Droll Reply to a Constituent—The Silent City Fathers.

One of Councilman W. T. Sawyer's Fourth ward constituents who hadn't seen his name appear very frequently in the newspaper reports of the fireworks exhibitions which take place in the Council chamber every Monday night, under the direction of Capt. Walker et al., asked him what he was doing to promote the glory and interests of the ward.

"Well," was the droll reply, "I feel about Council as about some other things—I want it understood that it ain't me. I'm going to introduce an ordinance some of these days, if I ever get a chance, requiring the Councilmen to sign their names to the speeches that appear in the papers." The fact is that since Col. Sawyer

GOMPERS

Makes a Defiant Reply

To the Metal Trades Resolution.

"It Will Live to Regret the Matter."

Says Labor Unions Will Grow Despite Opposition.

Washington, June 13.—(Spl.)—President Gompers, of the American Federation of Labor, made the following statement when he heard that the National Metal Trades association would make war on trades unions: "If the National Metal Trades association resolves to ignore or antagonize the trade unions it is not only grievously wrong but it is the gravest mistake it can make, and if it lives it will regret the adoption of the resolution. The organization of the workers in trade unions is not only natural in modern industry but essential to protect the rights and interests of the workers as well as of fair minded employers. It makes for industrial peace and the public good; history will repeat itself, and the trade unions of our country, in affiliation with the American Federation of Labor, will grow in numbers, power and influence for good in spite of any and all concentrated effort to crush them."

ATTITUDE

Of the Metal Trades Association Causes Resentment.

New York, June 13.—(Spl.)—The action of the Metal Trades Association yesterday in declaring the question of hours and wages to be a local issue and taking measures to raise \$500,000 to protect their interests, threatens to precipitate a general strike of 650,000 men in the metal trades, who are members of the American Federation of Labor. Members of the Federation say this morning that the very existence of their organization is at stake and they promise to make a hot fight. C. W. Booth, representing the grand lodge of the International Association, talked on the situation this morning. He said the action of the Metal trades foretold of a fight for a wage and working day principle which would be fought to the last ditch.

Lawson said today: "It may possibly be that someone is selling the Independence without consulting me, as they are doing many curious things in yachting this year. As far as I am concerned, there has been no change in the status of my boat since her keel was laid, and since the publication of the last column the subject of the status of the Independence has not even been mentioned to me by any one."

SIEBER

'Tis Claimed That He Will Win.

If Not, a Dark Horse May be Named.

Warm Time at Tuesday Night's Caucuses.

The Alexander Forces Claim 40 Delegates.

The legendary "hot time" may be safely expected in Akron Tuesday night, the occasion being the Republican caucuses for the choice of delegates to the Senatorial convention in Cleveland, June 24. The Sieber and Alexander forces are hard at work in both city and country, not only in Summit, but in other counties of the district.

Friends of Mr. Alexander claim they will have 40 of the 100 Summit county delegates. Mr. Sieber's friends say the opposition will have only a few scattered country delegates, if any. They claim, moreover, that even if Mr. Alexander had Summit county, solid he could not be nominated, that the remainder of the district is against him. They are making the fight largely on the ground that Mr. Alexander has already had more terms in the Legislature than often fall to one man. The Alexander forces are opposing Mr. Sieber on his failure to support the Clark bill, and the claim that he opposed a measure introduced in behalf of labor organizations.

The prediction is made on both sides by the more conservative that there is a probability that the division of Summit county is likely to lose Akron the Senator. Although it is claimed that Mr. Sieber will be nominated, it is said that, if by any chance he should not be, the nomination would go elsewhere. They do not believe, however, that Mr. Harris, the Ashtabula man, has a chance to win.
